I can't really support that statement.

This is a great time to make a statement supporting children, but there are many political issues intertwined with this issue, as well as a good amount of bad actors who are gaming the system and using children as political pawns. It's important as an organization not to get caught up in this political drama, though a statement can be made that focuses on the welfare of children.

Our country is and has been for decades, one of the most generous and welcoming countries in the history of the world, yet we still have -- and need to have -- a process for entry, whether as an asylee or as an immigrant.

We're being put in a Catch-22 situation where children are being used to exploit the asylum system. When you call out "We as Americans" for failing to help kids at the border, I think we can equally point to people with a policy agenda on immigration -- as well as migrating families -- who are also responsible for the damage being done to these children.

Thanks, Carol.

You're right. We live in the greatest country on earth, and that's not just your or my opinion. That's the opinion of the millions who voted with their feet to get here, legally or illegally.

What makes our country great, is not the Grand Canyon or the Golden Gate Bridge. What makes our country great is that we have the rule of law here. Because we have the rule of law, we are not overrun by gangs, aren't ruled by tyrants and have the economic freedom to make a living to provide for ourselves and our families. Without that rule of law, we quickly become what people are fleeing from.

In order for us to continue to be the most welcoming country in the history of space and time, we must preserve the rule of law and secure our borders. I fear that often we are going in another direction.

Dear Mr. Nearman,

I struggle with the issue of illegal immigration and I know that you are concerned too. My friends will say "my grandparents came here legally" but now I find that there were no laws on the books to restrict immigration until the 1920s, so it was easy for all of our ancestors to come (well, except for the boats and leaving family etc!). But my conservative Mormon friend recently wrote this and it struck a chord with me. While I have no answers to the immigration problems, I do believe we must lean toward kindness.

"I believe that your position may change if you were standing in El Salvador, holding a child standing with a mother who's sobbing and begging you to take her son with you because the gangs are trying to recruit him and she is desperately trying to hide and save him. I believe that your position may change and you would save that drowning child and his parents who capsized on that flimsy, overcrowded dingy if you were on the beaches of Greece, even though they came there illegally from the war zones of Syria. I believe that if you were standing in the crisis, in the middle of the crumbled buildings and children crying from hunger, standing over the bodies of people you know that were killed for no reason, the views you have now from the comfort of your home would be softened. You can still believe in legal immigration, I do. You can still believe in fixing the loop holes and wanting undocumented people to do the right thing and get their papers in order, I do. You can want to make sure refugees and economic migrants get processed differently yet fairly, I do. But you can also remember that outside of your lovely and safe country there are real issues that people are running for their lives from. People that have never known the safety of free speech, full meals,

and good education. And there are softer and kinder ways to process people and make everyone feel like people. They aren't so different than you and I. You can bet that I would jump all fences, swim all waters, and ignore all laws to seek to save the lives of people I love. And you would too. Let's work together to process and listen to and work with all people who seek freedom and peace. If you can do good and minimize trauma, and trust me, we can, it's our duty to do it! "

Thank you for your service. Please lean toward kindness. Sincerely, Carol Cattrall, RN, retired

Dear Representative Nearman:

We want to thank you as a family supporting your honest service during the time of total loss of common sense by other State officials. The efforts of putting a ballot to enforce federal law must be enormous given the hysterical tone of the local Democrats! We just passed the ballot measure allowing to increase the Benton County property tax up to \$40.00 to support local schools maintenance and expansion. At the same time Senator Jeff Merkley in his Newsletter proudly announced that the first question from the audience that he received during the Townhall meeting was from an illegal immigrant high school student who attends the Corvallis High School. He also passionately supported the health care measure back in January. Sen. Merkley puts all the public benefits' financial burden on his voters, while advocating for and giving the benefits to the people who are not even the voters! I never saw his efforts being to the benefit of Oregonians, except close to the elections!

We have a terrible problem here with illegal immigration. There are homeless children of school age from Honduras and other countries in Central America, Mexico. We have also homeless families of Oregonians who are victims of wildfires and other unfortunate circumstances. The burden of providing for illegal immigrants and their children takes away resources needed for the Oregonians. You understand that, and you listen to the working families who are the voters!

We didn't hear about the petition in time to sign in. But we will vote to protect our State from harboring illegal immigrants as provided by the Federal law. It is a common sense and a good citizenship to follow the law.

Please accept our sincere gratitude!

I always attempt to vet any article of this nature before I forward it, but in my attempt to do so in the case of this article I was not able to find direct attribution to the "Author".

I did however find the following post which contains the article and I agree with that author that the propositions found in original article are to profound to be ignored. It is with that caveat that I send it to you for your consideration.

Civil War by The Late Dr. Jack Minzey

May 24, 2018

<u>Education / Public Schools</u> <u>Political, Christian and Conservative Issues</u> <u>Politics</u>

Sometimes things that come across my desk are so well done that it would be an injustice not to share them. Such is the case with the following. I received this article from a subscriber. I did not know the author but the truth he has penned is transcendent. In my effort to confirm that the attribution is correct, I even reached out to the late Dr. Minzey's family. At the time of this writing I have not yet heard back from them, so based upon the vetting I did do, I share it with you. The truth presented in this article is incontrovertible. I trust you will find it as powerful as I have. The article begins below. — Mychal Massie

More than a month ago now, Jack Minzey sent what was to be the final chapter in

the long line of books and treatises that he has written over the years..

Jack went to be with the Lord, on Sunday, 8 April 2018.

Professionally, Jack was head of the Department of Education at Eastern Michigan University as well as a prolific author of numerous books, most of which were on the topic of Education and the Government role therein.

His interest in Conservative Politics was exceeded only by his intellectual ability.

This is the last of his works:

Civil WarHow do civil wars happen?

Two or more sides disagree on who runs the country. And they can't settle the question through elections because they don't even agree that elections are how you decide who's in charge. That's the basic issue here. Who decides who runs the country? When you hate each other but accept the election results, you have a country. When you stop accepting election results, you have a countdown to a civil war.

The Mueller investigation is about removing President Trump from office and overturning the results of an election. We all know that. But it's not the first time they've done this. The first time a Republican president was elected this century, they said he didn't really win. The Supreme Court gave him the election. There's a pattern here.

What do sure odds of the Democrats rejecting the next Republican president really mean? It means they don't accept the results of any election that they don't win. It means they don't believe that transfers of power in this country are determined by elections.

That's a civil war.

There's no shooting. At least not unless you count the attempt to kill a bunch of Republicans at a charity baseball game practice. But the Democrats have rejected our system of government. This isn't dissent. It's not disagreement. You can hate the other party. You can think they're the worst thing that ever happened to the country. But then you work harder to win the next election. When you consistently reject the results of elections that you don't win, what you want is a dictatorship. Your very own dictatorship.

The only legitimate exercise of power in this country, according to Democrats, is its own. Whenever Republicans exercise power, it's inherently illegitimate. The

Democrats lost Congress. They lost the White House. So what did they do? They began trying to run the country through Federal judges and bureaucrats. Every time that a Federal judge issues an order saying that the President of the United States can't scratch his own back without his say so, that's the civil war.

Our system of government is based on the constitution, but that's not the system that runs this country. The Democrat's system is that any part of government that it runs gets total and unlimited power over the country.

If the Democrats are in the White House, then the president can do anything. And I mean anything. He can have his own amnesty for illegal aliens. He can fine you for not having health insurance. His power is unlimited. He's a dictator.

But when Republicans get into the White House, suddenly the President can't do anything. He isn't even allowed to undo the illegal alien amnesty that his predecessor illegally invented. A Democrat in the White House has 'discretion' to completely decide every aspect of immigration policy. A Republican doesn't even have the 'discretion' to reverse him. That's how the game is played That's how our country is run. Sad but true, although the left hasn't yet won that particular fight.

When a Democrat is in the White House, states aren't even allowed to enforce immigration law. But when a Republican is in the White House, states can create their own immigration laws. Under Obama, a state wasn't allowed to go to the bathroom without asking permission. But under Trump, Jerry Brown can go around saying that California is an independent republic and sign treaties with other countries.

The Constitution has something to say about that.

Whether it's Federal or State, Executive, Legislative or Judiciary, the left moves power around to run the country. If it controls an institution, then that institution is suddenly the supreme power in the land. This is what I call a moving dictatorship.

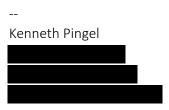

Donald Trump has caused the Shadow Government to come out of hiding: Professional government is a guild. Like medieval guilds. You can't serve in if you're not a member. If you haven't been indoctrinated into its arcane rituals. If you aren't in the club. And Trump isn't in the club. He brought in a bunch of people who aren't in the club with him.

Now we're seeing what the pros do when amateurs try to walk in on them. They spy on them, they investigate them and they send them to jail. They use the tools of power to bring them down.

That's not a free country.

It's not a free country when FBI agents who support Hillary take out an 'insurance policy' against Trump winning the election. It's not a free country when Obama officials engage in massive unmasking of the opposition. It's not a free country when the media responds to the other guy winning by trying to ban the conservative media that supported him from social media. It's not a free country when all of the above collude together to overturn an election because the guy who wasn't supposed to win did.

Have no doubt, we're in a civil war between conservative volunteer government and a leftist Democrat professional government.

Rep Nearman,

Thank you for agreeing to address my questions, they are as follows:

Why do you feel Oregon should no longer be a sanctuary state?

Proponents of sanctuary state status say that undocumented immigrants may be fearful to report crime in their communities if this measure passes, as any interaction with law enforcement might carry a risk of deportation. Any thoughts on this argument?

Your predecessor as vice president of OFIR, Richard LaMountain, as contributed to white nationalist websites and publications such as VDARE, *American Free Press*, and *Middle American Man*. Would you agree that these are white nationalist organizations? Has Mr. LaMountain been involved in the push to get measure 105 on the ballot?

In 2014, OFIR president Cynthia Kendoll referred to immigration as an "organized assault on our culture." Do you agree with that statement?

Subject: IA providers-listed federal law breakdown and response

Representatives and Senators on Human Services committees,

As you are aware, I am asking for an DOJ investigation into the reported issue of undocumented individuals authorized and employed as child care providers within the Department of Human Services. Although I was informed that there was no DOJ consultation, I have concerns that DOJ was not asked the correct questions or given the entire situation from DHS based on their letter to you. There is no issue with the validity of the ITIN (IRS tax number) used by those 79 individuals. DHS verifies this with the IRS. It was never reported to DHS as being stolen. The entire issue has been the use of the ITIN in place of a SSN and those 79 individuals self reporting to DHS of undocumented/unauthorized to work status.

This is an issue because it is a federal crime to "knowingly" employ illegal aliens/undocumented individuals. You saw in email that policy agreed with my findings. Federal law clearly defines contracted employment. DHS negotiates a labor contract, issues payments and regulates child care facilities. This is contracted employment and falls under 8 U.S. Code § 1324a subsection 4 (contracted employment)

Let me break this down.

- -It is unlawful to hire an alien, to recruit an alien, or to refer an alien for a fee, knowing the alien is unauthorized to work in the United States. INA 274A(a)(1)(A)
- -It is equally unlawful to continue to employ an alien knowing that the alien is unauthorized to work. INA 274A (a)(2)
- An employer includes an agent or anyone acting directly or indirectly in the interest of the employer. For purposes of verification of authorization to work, employer also means an independent contractor, or a contractor other than the person using the alien labor. 8 CFR 274a.1(g)

- An employer has constructive knowledge that an employee is an illegal unauthorized worker if a reasonable person would infer it from the facts 8 CFR 274a.1(I)
- Constructive knowledge constituting a violation of federal law has been found where (1) the I-9 employment eligibility form has not been properly completed, including supporting documentation, (2) the employer has learned from other individuals, media reports, or any source of information available to the employer, that the alien is unauthorized to work, or (3) the employer acts with reckless disregard for the legal consequences of permitting a third party to provide or introduce an illegal alien into the employer's work force. 8 CFR 274a.1(I)(1)

If the State does not believe itself to be an "employer" then are they are to specifically show to you that they have an "exception" and "permission" from HHS to issue payments to child care providers that are known to the agency as undocumented/unauthorized to work status? Is the State required to abide by all federal laws (including employment related immigration laws) as part of receiving grant money from the federal government? Is the continuation of this policy/practice perpetuating a criminal act by the state?

I would like to know if DOJ was given this entire information/situation. I think this situation is too big to simply ignore and needs to be addressed. Thank you and feel free to contact with any questions on my person phone (541) 670-4934.

Thanks, Sande.

We need to get rid of the one on 2017, also. One thing at a time.

While the '87 law was passed to stop racial profiling, it doesn't mention race and I don't think that law enforcement agencies are going to being racial profiling.

The problem with the '87 law is that some law enforcement officials use it as an excuse to not cooperate with Federal immigration authorities and that needs to end.

I hope you'll vote yes with me.

Mr Norman,

My name is Sande Maxwell. I have a question about this measure. Why are we getting rid of this law and not the one that was created in 2017. Can you tell me the difference. My understanding is the one in '87 was to prevent racial profiling by the police for random car stops and shakedowns. Wasn't there one passed later that is the one that prohibits state law enforcement to contact federal agencies or work with them in any way to arrest or detain people who are in the United States without proper documentation? I am confused because I am seeing statute number 181.50 and 181A.820 interchanged in conversations about this measure. Are they the same or is one different than the other. I do not believe racial profiling and allowing police to stop people of color for no other reason than the color of their skin and I do believe our state law enforcement should work with federal agencies to return illegal immigrants back to their country.

I appreciate any education you can offer on this very important issue

Thank you for your time

Sande Maxwell

There s not really a hard definition of a "Sanctuary State". We need to remove as many Sanctuary-type laws as possible.

Subject: Noteworthy Bill List

Members and staff,

The HRO policy team compiled the attached spreadsheet of bills from opening day's first readings list. There are two tabs:

- The first tab, titled "Noteworthy bills," is a list of some of the more controversial measures introduced so far. Some of them are very bad, others are just worth keeping an eye on.
- The second is a list of bills with broad relating clauses. These may be used as vehicles for gut and stuffs by our political opponents and may also be used as vehicles for our own concepts.

Please note, bills will continue to populate in OLIS each day they are dropped with the Clerk. It is also entirely possible we may have missed something in our slog through the 1,400 bill first reading list. If you flag a bill that you believe is worth being on this list, please let Hugh, Shawne or I know.

We hope you find this helpful in getting an understanding of some of the more controversial topics that are in the bill universe right now. Let me know if you have any questions.

Chase

Hello Representative Nearman,

My husband and I live in Dallas, and I'm learning about getting involved in the legislative process. I'm also interested in learning more about who is representing me and my friends and family.

I'm writing to see about your perspective SB 558 that passed last year. This bill turned into the Cover All Kids initiative through OHA. Do you have any thoughts about our decision to extend healthcare to everyone under the age of 19, regardless of immigration status? This bill has bipartisan support and was sponsored by democrats and republicans, but I'm interested in your take on the legislation.

Also, what are your priorities this session? Are there any bills you are especially excited or worried about? Thank you,

Patricia Godsey

Thanks, Patricia.

While I wish that everyone could have at least some basic level of health care, SB 558 is not a good solution, which is why I opposed it. This creates a magnet for illegal migration and I have already heard stories of people illegally coming to Oregon just for health care.

I'm on Ways & Means Subcommittees and Information Technology, so that's what I'm focused on.

I'm concerned about massive tax increases.
